

Comprehensive *Practitioners Course*

Online,
Self-Directed
& Live
Sessions

**FOR WORKPLACE
DESIGNERS**

Transform your professional practice by joining our “Rolls Royce” course to learn the science and application of Sensory Intelligence®

COST: \$1569

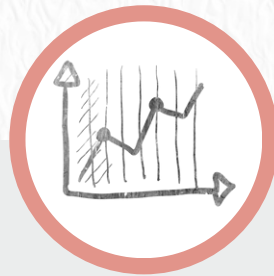

DATE: 1 March - 31 May 2025

EARLY BIRD: 23% discount before 31 January

ARE YOU?

- Interested to follow a more human-centric design approach
- Wanting to understand neurodiversity and inclusion and how to design with the end-user in mind
- Needing to up-skill yourself in sensory processing and how this relates to workspace design
- Unfulfilled with your current professional toolbox
- Wanting to improve your professional status and credibility
- Wanting to address the personal needs of your clients in a more successful way
- In need of a sensory processing assessment and intervention tool

YOUR BENEFIT

- Be skilled in using sensory processing for adults in a transformative way
- Enable a higher success rate with your clients
- Become the designer of choice
- Outsmart your competitors by being innovative
- Learn how sensory processing can improve quality of life, home, work and relationships
- Expand your toolbox and service offering as a workplace designer
- Earn 30 CEU/CPD credits (university of Stellenbosch, South Africa) and/or 20 Core Competencies- and 16 Resource Development hours (ICF, International)

A DIFFERENT COURSE?

- Discovering your own sensory style to make the methodology personal
- Highly complex sensory processing theories will be made easy, accessible and practical
- Focus on sensory modulation and sensory regulation for adults and adolescents
- Blended learning with 9 self-directed- and 6 live Zoom sessions, access to more recordings, articles and information on our learning management system
- Our delegates rate this course extremely valuable and practical, exceeding their expectations
- **A money-back guarantee!**
